INTER-COUNTY ROAD

Two Counties May Co-operate in Building Highway.

Dawson Springs, Ky., May 3.—A good roads movement has been started between citizens of this city and Hopkinsville, that likely will result in the building of a metal pike between the two towns.

The road committee here is in receipt of a letter from Judge Fowler, of Christian county, in which a proposition is made for the citizens here to cooperate with Christian county in building the highway. Judge Fowler states Hopkinsville citizens have the money and are ready to build the road and are anxious for the citizens here to build a road to meet theirs at the county line.

Hopkinsville and Dawson Springs are separated by thirty miles of road that is almost impassable in winter. Christian county is willing to cover twenty-eight miles of this distance with pike and it remains for the citizens here to raise funds to build the remainder.

Their Day of Pleasure.

Not long ago a North country vicar married an elderly couple at 11 o'clock in the morning. At three in the afternoon his duties took him to the neighboring cemetery, where he met the same couple seated lovingly on one of the benches. "You see, sir," the husband explained, "my wife is a rare 'un for pleasure. I wanted to go back to me work this afternoon, but th' missus sed we'd better enjoy ourselves to t' full and mak' a day on t'."—London Answers.

Cheap Generosity.

Old Skinner thinks he's generous with his young and handsome wife, yet there is one great drawback to her joys of married life. He supplied her with a beautiful little book of checks in blank; but, alas! he quite forgot to put any money in the bank.

Spain has 4,000,000 persons engaged in agricultural pursuits.

MODERN AFFLICTION.

"Doctor, what shall I do to stop this ringing in my ears?"
"Better have your telephone taken out."

HIS INVESTMENT.

"They say that financier got rich suspiciously quick. How did he make his money?"
"In steal stock, I believe."

NOTHING ADDED.

"Can two live as cheaply as one?"
"In some respects, yes. It works out all right as regards the maintenance of an automobile."

LOGICAL CONSEQUENCE.

"The man we buy our medicines from is a poet."
"That's not surprising. Isn't poetry a drug on the market?"

Flies are rare in Havana owing to sanitary measures.

The American tomato crop is worth \$140,000,000 a year.

Diplomatic Retort.

The drill sergeant was real mustard, and the recruits were having a bad time. The weather had been very wet, and the parade ground was still slippery. In doing a movement smartly, as an example to his men, the sergeant slipped and fell full sprawl, and, naturally, the "rookies" could hardly repress their mirth. Getting up with all the dignity he could muster, the sergeant's eye fell on Murphy's grinning face. "Well, you grinning 'yena!" he roared. "What's 'urting you? Do you see anything funny?" "No, sur," gurgled Murphy, tactfully. "But, shure, Oi wuz just thinkin' what a laugh we cud have had it been any way like save yerself, sergeant."—London Answers.

Milk From the Desert.

El Paso, Tex., has one of the most interesting milk supplies of any city. A considerable amount of the milk is goats' milk produced by a number of goat dairies, one of which has a thousand goats. These goats get their living from the surrounding hot, dry territory, deficient in grass and only moderately covered with sagebrush and cactus. A cow would starve to death, but the goats, though fed neither hay nor grain, give on an average about a quart each. The milk brings the same price as cows' milk and is sold both in bottles and in bulk.—Farm and Fireside.

Chicago expects 5,000,000 population within twenty-five years.

GUARDSMEN QUIT

Letcher Militia, Formed in Days of Ku Klux, Disband.

Whitesburg, Ky., May 3.—The Letcher county company National Guard was mustered out of service here Saturday. The company was organized many years ago to quell disturbances due to an outbreak of the celebrated Ku-Klux-Klan in the Boone's Fork section. The disbanding of the company is due to a disagreement over the election of a captain. For many years it was the crack shot of the whole of the state guard.

Dogwood Notes.

The farmers are all very busy planting corn at this writing.

The Sunday Schools at Dogwood are progressing nicely, one at the Christian church at 10 in the morning and another at the Baptist church at 2:30 in the afternoon.

Several of the young folks of this vicinity attended the Circle meeting at Pleasant Hill Saturday and Sunday.

Mrs. Willie West and daughter, Miss Opal, spent Sunday with the family of Mr. James Underwood.

Miss Ella Carter, of Hopkinsville, spent Saturday and Sunday with her father's family, Mr. C. A. Carter.

Miss Carrie Woodburn spent Sunday evening with Misses Ella and Ermine Carter.

Celluloid Watch Crystal.

A watch crystal of celluloid which has just been patented can be made at a cost greatly below that of glass, and is also cheaper in the respect that it will last much longer. It gives the same protection to the timepiece.

Valuable Well.

Water issues from an artesian well on a Georgia farm with sufficient force to light its owner's house and barn with electricity and to give him power for small machinery.

Bananas can be ripened in a room kept at 110 degrees.

Not His Abode.

An agent, approaching a house, met a little boy at the gate and asked: "Is your mother home?" "Yes, sir," said the boy, politely. The agent walked across the long lawn and, after rapping several times without receiving an answer, returned to the youth, saying: "I thought you said your mother was at home." "Yes, sir," she is," replied the boy. "But I have rapped several times without receiving an answer." "That may be, sir," said the boy. "I don't live there."
